DETAILED ACTION

Election/Restrictions

Claims 1-20 and 34-37 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 9-23-04.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 21-28 are rejected under 35 U.S.C. 102(b) as being anticiapted by Rippere (4,120,758). Rippere teaches suspending the particles in a suspension and applying at least one magnetic field to the particles (col. 3, ll. 35-45); co-depositing the particles along with at least one component of the suspension; and forming a desired structure (col. 6, ll. 18-30); wherein the applying step comprises controlling at least one deposition location of the particles; wherein the applying step comprises controlling a particle loading (col. 4, ll. 15-25); wherein the particles are magnetic (col. 7, ll. 50-60); wherein the particles have been coated with at least one coating (col. 6, ll. 18-30); wherein the suspending step comprises suspending the particles in an electrolytic solution (col. 4, ll. 15-25); co-depositing in one deposition step at least two materials with incompatible electropotentials (col. 7, ll. 50-60);

Claim Allowance

Claims 29-32 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 33 is allowed.

The following is an examiner's statement of reasons for allowance: The instant application is deemed to be directed to a nonobvious improvement over the invention patented in Pat. No. 6,090,710. The improvement comprises a particular suspending step and a forming step comprises filling a via in order to provide high aspect ratio structures.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jonathan Johnson whose telephone number is 571-272-1177. The examiner can normally be reached on M-Th 7AM-5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Dunn can be reached on 571-272-1171. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
